

Field : **TRANSPORT OF STREET FURNITURE**

## For risk-free transport

As one of the key factors determining the success of any business transaction, the transport of equipment is subjected to in-depth studies regarding impact and vibration. The specific and complex masses and structures to be cushioned often require a specialist's technical opinion.

components were often damaged during transport.

A large number of facilities were thus transported and installed around France and in a handful of European capitals. The SOCITEC metal wire suspensions boast an unlimited service life and a low wear rate even in harsh conditions of use.

### FROM SATELLITES TO PUBLIC URINALS

Fortified by its reputation as the leading supplier of satellite transport container suspension systems in Europe, SOCITEC was contacted by a street furniture manufacturer in 1989. The manufacturer was seeking a means of transporting its new sanitary facility to places all over Europe. The suspension systems that it had been using up until then did not meet the new product requirements. Indeed, once manufactured and ready for off, the facility constituted a 4-tonne structure incorporating neon lights and tiled surfaces. A significant number of these fragile

### A GLOBAL STUDY

SOCITEC was entrusted with the task of studying a suspension system that could guarantee total protection of fully-garnished equipment during transport. The manufacturer's aim was to avoid any maintenance operations on site; the sanitary facility was simply to be delivered whole.

### CUSTOMER SATISFACTION

Having met with success, the manufacturer called upon SOCITEC once again, to transport its town totems using a similar solution.

In perfect keeping with the strict requirements associated with current weaponry standards, the HELICAL metal wire shock absorber was put forward and integrated into a removable suspension system. The recommended solution involved a chassis equipped with 8 shock absorbers fitted to the semi-trailer used for transport.

SOCITEC «HELICAL» isolator

Having been more renowned for its solutions in the Weaponry, Aeronautics and Space industries in the past, SOCITEC will also have proven its competent means of transporting street furniture.
